

RESP RECEIVED

FEB 22 2010

Dave N. Whiting
U.S. Environmental Protection Agency
Region VII
922 Walnut Street
Iowa City, IA 52240

Mr. Whiting,

This letter is in response to your recent visit and the two citations. The following corrective actions have been taken:

1. In response to 40 CFR 273.13(d)(1), containers that have been opened to be counted will now be closed immediately afterwards until the lamps are processed. Containers that are delivered without the ability to be closed will be immediately processed.
2. In response to 40 CFR 273.14(a), the two containers of batteries that were not labeled, received labels immediately when it was noticed they were missing. We believe they had been labeled as were all of the other containers surrounding them but the containers didn't seem to hold the labels on very well in the cold. We reinforced the labels with packing tape to keep them on the containers.

If you have any other questions or concerns, please feel free to call me at anytime day or night at 800-551-4912. We appreciated your visit and look forward to working with you again in the future.

Sincerely,

Larry Young
